SECTION 1

The Kwajalein Atoll is presently served by four telephone exchanges. The Island of Kwajalein, Gueague and Ennylabegan are served by the Kwajalein Telephone Exchange. Telephone numbers of the Kwajalein Exchange are prefixed with 8. Illeginni numbers are prefixed by 76, Meck with 77, and Roi-Namur with 99. All telephone numbers will comprise five digits.

WHEN DIALING OR USING PARTY LINE SERVICE

1. Please use extreme courtesy and cooperate with your fellow subscriber.
2. Make certain that all instruments are not off the hook.
3. Make certain you have the correct number.
4. Lift the receiver, make certain that the line is not in use. If you hear dialing clicks, the ringing signal, or voices, you know the line is in use.
5. If you are talking and another party comes on the line, let him know, in a courteous manner, that the line is in use.
6. Emergency use of telephones: All personnel should immediately relinquish the party line when informed that an emergency exists.

TO DIAL THE OTHER PARTY ON A PARTY LINE

To call the telephone number on the same line as your phone, dial the assigned number, listen for busy tone, then hang up your phone. Both your phone and the phone number called will ring. When the ringing stops on your phone you may assume that the phone number called has been answered. If the called party does not answer, remove your phone from the cradle and the ringing will stop. Should further explanation be required, call 81111.

NOTE: Good service on a party line depends on the cooperation of all subscribers on that line. Party line users are asked to be considerate in using their phones, so as not to interfere with the service of others. If continual harassment or service abuse occurs, telephone service will be terminated.

OPERATOR AND OVERSEAS CALLS

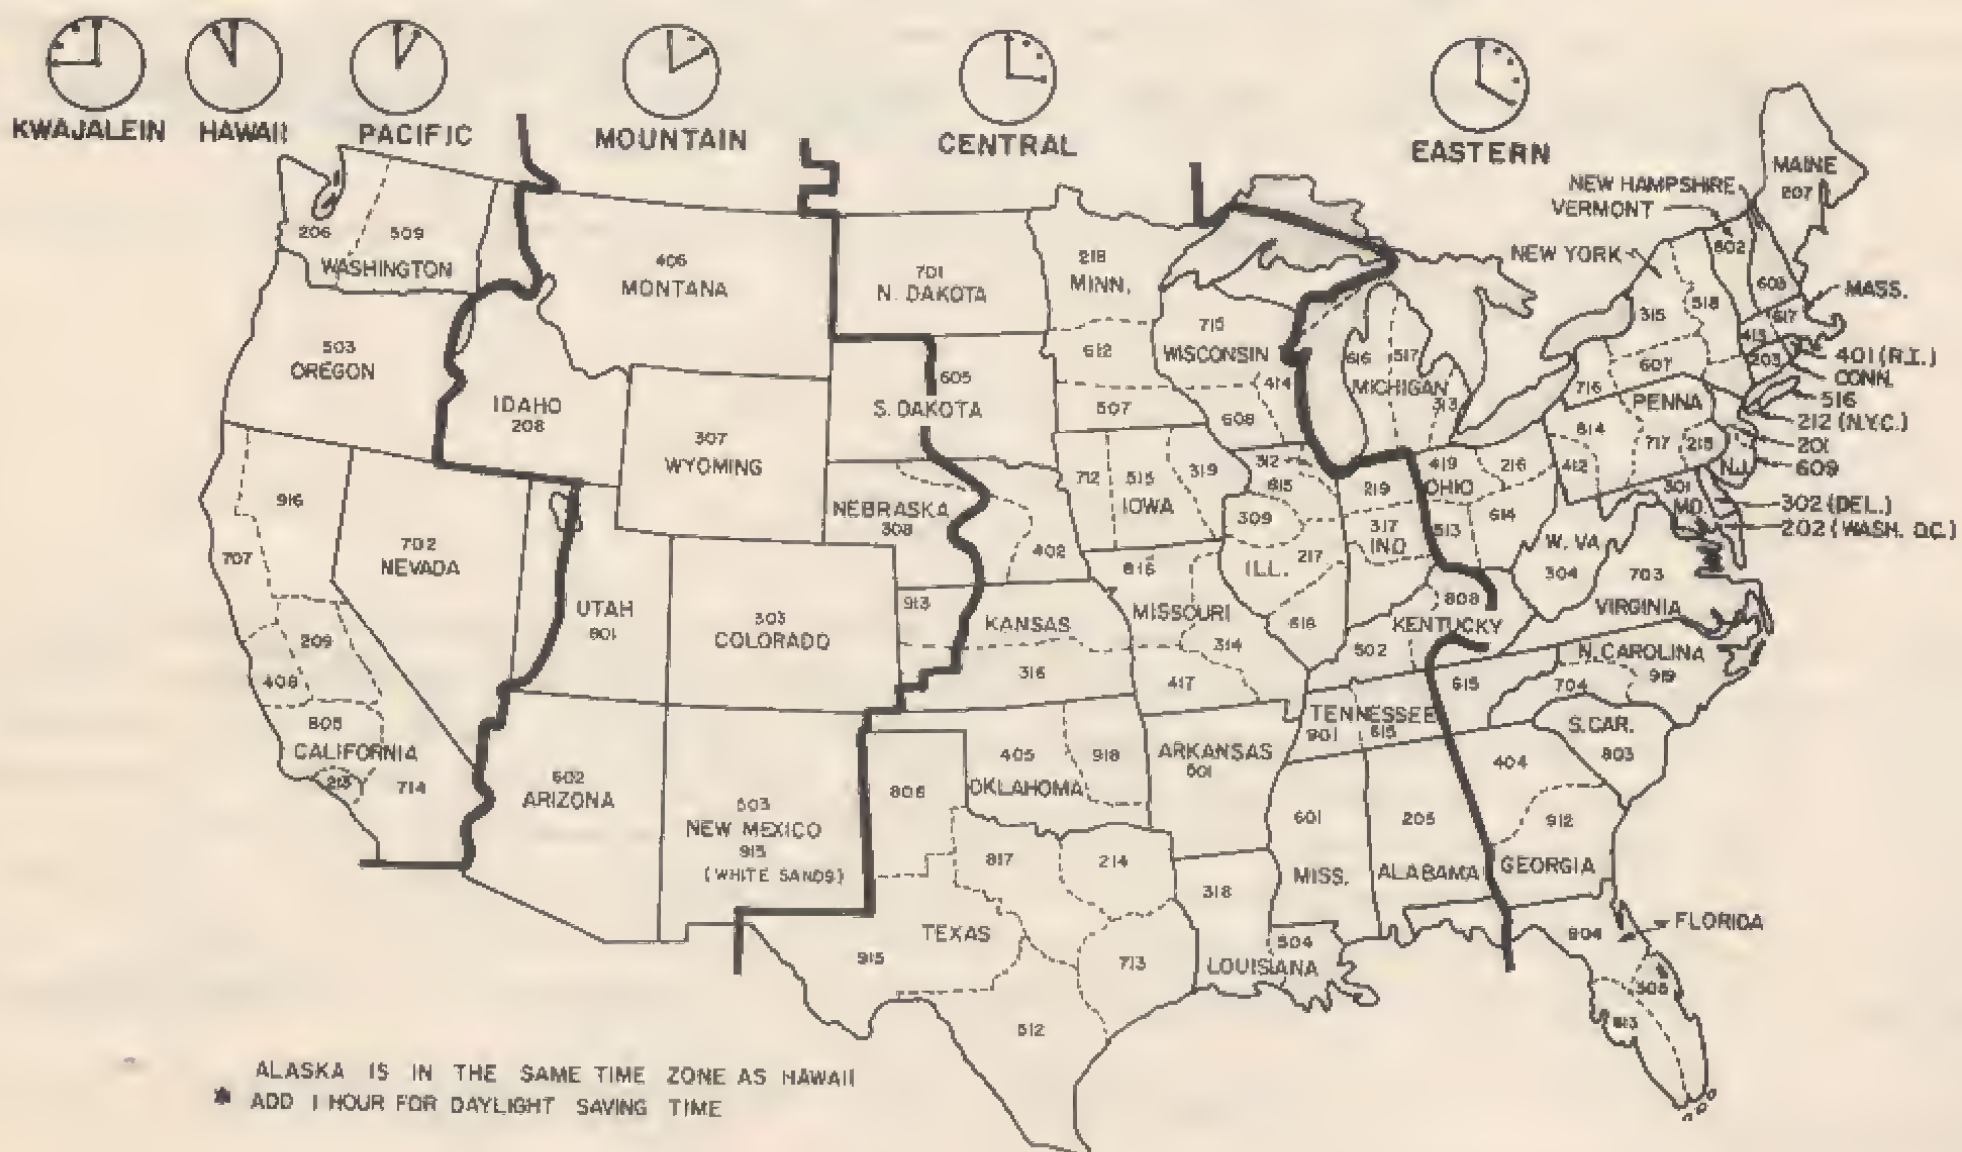

To dial the operator from:

Kwajalein telephones	Dial "0"
Roi-Namur telephones	Dial "80"

Meck telephones	Dial "80"
Illeginni telephones	Dial "80"

Overseas calls will be booked by the switchboard operator. Calls will be handled by the priority specified (see Section 1, for priorities) and in the order in which they are booked. Bookings for official calls will be accepted only from persons authorized by lists provided by the KMR Communications Officer.

SECTION I

TELEPHONE INSTRUCTIONS

1. GENERAL

a. Regulations governing use and installation of telephones are contained in the appropriate Department of Defense Directives and KMR Regulations.

b. The telephone equipment at this installation has been installed primarily for the purpose of transacting official business. Quarters and unofficial telephones are considered secondary. Telephone installation, repair, and service are based on this concept.

c. During certain missions, (SAFEGUARD, APOLLO, etc.), telephone communications to and from Kwajalein Missile Range will be restricted/reduced due to the use of available circuits for support of the applicable mission. Periods of reduced or restricted communications (Minimize/Moratorium) will be announced in the Hourglass and broadcast over AFRS. The cooperation of all Island residents is required during these special missions. Be advised that during all SAFEGUARD Missions, all incoming and outgoing calls are monitored by tape recordings.

2. CLASS OF SERVICE

a. PARTY LINE SERVICE - Telephone service for quarters is normally two-party service. Two-party service consists of two quarters being serviced by the same telephone line. Separate telephone numbers will be assigned to each telephone. Ringing will occur only on the telephone being called.

b. PRIVATE LINE SERVICE - Private line service will be provided for all official or business areas with access to all telephone service. Private line service will provide one telephone number on one line. Private line service in the residential area is restricted at KMR due to the limited telephone cable(s) facilities, and can only be provided within the capability of the particular cable(s) servicing the area. In the event that cable facilities in an area become saturated, an official letter from Chief, Communications Division, KMR, will be sent to users where private line service will be terminated to fulfill official or business requirements. The following policy will be followed in order to prevent saturation of cable facilities.

- (1) Only one telephone line to any residence.
- (2) No private telephone service without approval of Chief, Communications Division, KMR.
- (3) No private lines or extensions in BQ's. BQ telephones will be standard wall mounted installations.

3. REQUEST FOR SERVICE (DA 11-154) SEE SAMPLE COPY ON OPPOSITE PAGE

a. Requests for telephone service, residential or business, will be submitted by respective organizational administrative service branches on a DA Form 11-154. These forms are available from the KMR Telephone Exchange - SSC Bldg. - Kwajalein - Phone 81125.

Requests will consist of one of the following:

- (1) New Installations - new telephone and number.
- (2) Re-Installations - phone presently installed - assignment of a new number.
- (3) Relocation - moving a phone and existing number to another location.
- (4) Disconnect - discontinue service on a phone or one number.

Requests will be forwarded to:

Kwajalein: KMR Telephone Exchange, SSC Bldg., Kwajalein.

Roi-Namur: Kentron Hawaii Ltd., Communications, Roi-Namur.

All requests must be completed in full. Incomplete requests will be returned. Requests must be provided three days prior to the date service is desired. For information concerning service on Meck, call 77200. A copy of the Request for Telephone Service (DA 11-154) will be provided Global Associates at Kwajalein and Roi-Namur for necessary accounting purposes.

b. Organizations planning a modification to their existing telephone usage are requested to enlist the assistance of Support Services Supervisor (81360) to assure that service can be provided on dates desired and all necessary information is available. Drawings of desired telephone locations are helpful. In the case of a relocation, the existing telephone location is mandatory.

c. When the requests involve quarters or residential telephone service, it is necessary that a time of day be specified for access to the premises. Installation and repair functions will be conducted from 0730 hours until 1630 hours, Monday thru Saturday.

d. Extension telephones are not authorized in the bachelor dormitories or BQ's. Extensions degrade the quality of the primary user. All improperly installed extension telephones will be removed.

e. Requests for business/residential/BQ telephone service (DA 11-154) should be signed/countersigned by the responsible person to assure correct billing/collection by Global Associates Finance Section.

f. -Users requesting cable pairs, special circuits, or any related Central Office Support must also use the DA 11-154 and must provide all covering information. No verbal work requests will be accepted unless the work required is of an urgent nature, such as immediate mission and/or range support; but even then, a written request must be sent within two working days.

4. DIRECTORY SERVICE

a. Telephone directory personnel listings are maintained by the Telephone Exchange, indicating business and residential telephone numbers.

b. In order to maintain current directory service, all units losing or gaining personnel will instruct the individual responsible for telephone listings in that area to immediately notify the Telephone Directory Clerk (81125) of changes or corrections to their directory listings. IT IS THE RESPONSIBILITY OF EACH INDIVIDUAL TO IMMEDIATELY NOTIFY DESIGNATED PERSONS, or the Telephone Directory Service, of required changes to their directory listings.

c. Each organization is responsible for keeping its organizational telephone listings complete and accurate. All changes, additions or deletions must be submitted in writing to the Kentron Hawaii, Ltd. Directory Clerk, KMR Telephone Exchange, SSC Bldg., Telephone 81125.

5. STANDARDS OF SERVICE

a. Telephone personnel are instructed to be uniformly courteous. Similar consideration on the part of the subscriber will be an incentive to superior service. Subscribers should not reprimand or enter into unnecessary conversation with telephone installers or operators. Service complaints should be referred to the Kentron Operations Support Supervisor (81133). Appropriate corrective action is assured.

b. Service will be more efficient if telephone subscribers will cooperate by consulting the directory for correct numbers before dialing.

6. RESPONSIBILITIES OF SUBSCRIBERS

a. The control of official calls is the responsibility of each section and/or division chief.

b. Telephone subscribers are responsible for the proper use of equipment. UNDER NO CIRCUMSTANCES WILL SUBSCRIBERS MOVE, ALTER, PLACE ATTACHMENTS ON, OR MAKE ADDITIONS TO TELEPHONE EQUIPMENT OR CIRCUITS. Newly installed switching equipment is not compatible with some older station equipment and may result in service interruptions. Unauthorized equipment will be confiscated until proper ownership is determined.

c. Special telephones (Antique, Princess, Ericophone) can be used if subject equipment has been thoroughly checked by the Kentron Hawaii, Ltd. Telephone Section (Telephone Repair-81111). Labor charges for the repair and/or installation will be billed to the responsible individual through Global Associates. Normal monthly charges will prevail.

7. CONFERENCE CALLS AND TRANSFER OF CALLS

a. Conference calls can be provided for local and overseas parties by the telephone switchboard operator (Dial "O"). For additional information concerning conference calls, phone 81127.

8. PERSONAL TELEGRAPH SERVICE

a. There are no commercial facilities such as RCA, Western Union, etc., on Kwajalein. However, the KMR Communications Center does have access to commercial telegraph service in Honolulu, Hawaii. All personal telegrams sent or received on Kwajalein are via military circuits and are handled on a non-interference basis after official message traffic. Each resident should notify those persons from whom they expect telegrams that the Kwajalein address for telegrams is his name and geographical location NOT the APO. Example: John Doe, Kwajalein, Marshall Islands. Telegrams sent to our APO San Francisco 96555 will be sent by mail from San Francisco. It is recommended that your organization name also be included. This will expedite the delivery of telegrams after they are received at Kwajalein.

b. Cost of telegrams: The cost of personal telegrams is based on the number of words, type of telegram, and destination.

Rates for Telegrams are as follows:

Continental United States (CONUS)

Night Letter (letter telegram)	\$.13½ per word	22 word minimum
Straight Wire	.27 per word	7 word minimum

Oahu, Hawaii

Night Letter (letter telegram)	.03 per word	22 word minimum
Straight Wire	.06 per word	7 word minimum

All Other Islands, State of Hawaii

Night Letter (letter telegram)	.09 per word	20 word minimum
Straight Wire	.18 per word	5 word minimum
Confirmation of delivery	1.75 per telegram	

c. Personal telegram service is available 24 hours a day, 7 days a week. For further information on charges to specific locations and limitations, call 81569 or 81549.

d. Telegrams must be delivered, paid for in cash, and picked up at the KMR Communications Center (Bldg. 1008) at the message pick-up window. Money orders, collect telegrams, and credit cards will not be accepted; nor is it possible to send or receive money via telegrams.

9. EXCAVATING

a. To verify the location of existing telephone buried cable, call 81111. A qualified man will determine if cable facilities are in the vicinity of the planned excavation and if so, relocation will be coordinated. Cooperation will result in minimizing unnecessary service interruptions.

10. LONG DISTANCE CALLS (KMR Reg. 105-3)

a. Official calls are classed as either operational or administrative and may be originated by the KMR Military Command or civilian contractors. Lists of those persons authorized to originate overseas telephone traffic will be submitted to Chief, Communications Division, KMR. Authorization lists will be subject to approval by the Chief, Communications Division, KMR. Only those individuals listed will be allowed to book calls for overseas. Other persons will be required to have calls booked by the authorized representative of their organization.

b. In view of limited available telephone circuits (1 circuit to Hawaii and 2 circuits to the mainland) it is necessary that all calls on HF circuits be restricted to no longer than 15 minutes. The telephone operators have been advised to inform all customers of this restriction. The wholehearted cooperation of all KMR tenant users is requested.

c. Personal calls: Personal calls of an absolute bonafide emergency only, will be accepted during normal duty hours. A bonafide emergency will be construed as one of the following:

(1) A death, a serious accident or serious illness involving a member of the immediate family.

(2) Other incidents where the heads of organizations will verify an emergency.

d. In all cases, emergencies must be verified by a member of the various organizations who is authorized to approve long distance telephone calls.

e. Personal calls other than those of an emergency nature as outlined above WILL NOT be accepted during normal duty hours. These calls will be accepted on a non-interfering basis after duty hours and weekends.

f. Personal calls to the mainland must be placed on a collect basis and may be either person-to-person or station-to-station calls. No authorization is required to place these calls.

g. Personal calls to Honolulu are handled through the operator at the Military Joint Overseas Switchboard in Honolulu and are accepted as traffic permits. These calls do require authorization by a duly authorized company representative who is authorized to approve long distance calls.

h. All outgoing as well as incoming official calls have priority over personal calls. Personal calls are subject to immediate pre-emption upon receipt of an official telephone call.

i. In addition to the telephone circuits listed in Paragraph 10b, KMR presently has access to two (2) voice circuits (AUTOVON) to the CONUS via the Defense Satellite Communication System. The AUTOVON circuits are presently restricted to official telephone calls and are not to be utilized for personal phone calls.

j. Long distance telephone calls originating from Kwajalein are routed via a high-frequency radio path, therefore voice quality is not always as efficient as that experienced on a hardwire path. If difficulty is experienced, the KMR operator should be advised.

k. It must be emphasized that due to our limited facilities, abuse of the above stated policy could result in total loss of this service. The cooperation of all concerned is solicited.

11. MONITORING TELEPHONE CONVERSATIONS

a. Conversations will not be monitored by stenographic or other personnel except in special cases when monitoring of a specific telephone conversation is requested by one of the parties to the call. However, the conversation will not be monitored without the other party or parties to the conversation being aware that the call is being monitored.

b. All secretarial personnel will be informed that no telephone conversations will be monitored without specific, affirmative instruction for each specific telephone call.

c. Conference telephone calls among more than two parties are permissible with the consent of all parties concerned.

12. BOOKING OF CALLS

a. Long distance calls will be completed in the order and priority in which they are received by the operator. For priorities, see page 11, Section 1. The operator on duty will assist you in booking calls.

13. COLLECTION OF UNOFFICIAL TELEPHONE CHARGES

a. Individuals subscribing to unofficial telephone service will make their reimbursement to the U. S. Government in accordance with current prescribed charges. Payment will be made to the Global Finance Office on the first of each month. For telephone charges, see page 12, Section 1, in this directory.

SECTION I

DEPARTMENT OF DEFENSE VOICE PRIORITIES

1. Effective 1 September 1965 the revised DOD priority system is in effect on a world-wide basis. This revised precedence system, is applicable to all telephone communications within the Department of Defense.
2. The revised precedence system is designed to provide personnel of the Department of Defense with a uniform system of priorities which will meet economical restrictions and be compatible with the telephone precedence systems already in use within NATO and the Office of Emergency Planning.
3. The revised telephone priority system depends upon the cooperation of the authorized user. The user must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Application of the precedences will depend solely upon the subject to be discussed and the circumstances involved. Rank or position of the user will not be the determining factor as to assignment of precedence category.

NUMERICAL CATEGORY OF PRECEDENCE	MILITARY PRECEDENCE DESIGNATOR	TRANSMISSION PRE-EMPTION	APPLICATION
1	FLASH	Has precedence over any other telephonic call of lower precedence. Pre-emptes lower precedence calls. May be pre-empted by the application of the FLASH OVERRIDE capability available to: (1) President of the US, Secretary of Defense, and Joint Chiefs of Staff; (2) Commanders of Unified and Specified Commands when declaring either Defense Condition One or Defense Emergency; (3) CINCPAC when declaring either Defense Condition One or Air Defense Emergency.	Flash Precedence is reserved for alerts, warnings or other emergency actions having immediate bearing on national, command, or area security. (e.g. Presidential use; announcement of an alert; opening of hostilities; land, air, or sea catastrophes; intelligence reports on matters leading to enemy attack; potential or actual nuclear accident or incident; implementation of services unilateral emergency actions procedures, etc.)
2	IMMEDIATE	Has precedence over any other telephonic call of lower precedence. Pre-emptes lower precedence calls.	Immediate Precedence is reserved for vital communications; (1) having an immediate operational effect on tactical operations, (2) which directly concern safety or rescue operations, (3) which affect the intelligence community operational role. (e.g. initial vital reports of damage due to enemy action; land, sea, or air reports which must be completed from vehicles in motion such as operational mission aircraft; intelligence reports on vital actions in progress; natural disaster or widespread damage; emergency weather reports having an immediate bearing on mission in progress; emergency use for circuit restoration, use by tactical command posts for passing immediate operational traffic, etc.)
3	PRIORITY	Has precedence over any other telephonic call of lower precedence. Pre-emptes lower precedence calls.	Priority Precedence is reserved for calls which require prompt completion for national defense and security, the successful conduct of war, or to safeguard life or property, which do not require higher precedence. (e.g. reports of priority land, sea, or air movement; administrative, intelligence, operational, or logistic activity calls requiring priority action; calls that would have a serious impact on military, administrative, intelligence, operational, or logistic activities if handled as a ROUTINE call.) "Normally, PRIORITY will be the highest precedence which may be assigned to administrative matters for which speed of handling is of paramount importance."
	ROUTINE	Has no precedence over any other call and is handled sequentially as placed by the calling party. No pre-empt.	Routine Precedence is reserved for all other official communications.
		When using the AUTOVON System, KMR users are subject to pre-emption. Usually a "beep" sound will be heard, but not in all cases. If in doubt, flash the operator.

CHARGES FOR TELEPHONE SERVICES INSTALLED OR DISCONNECTED DURING THE MONTH WILL BE PRORATED ON A 30 DAY BASIS.

SECTION I

DEPARTMENT OF DEFENSE VOICE PRIORITIES

1. Effective 1 September 1965 the revised DOD priority system is in effect on a world-wide basis. This revised precedence system, is applicable to all telephone communications within the Department of Defense.
2. The revised precedence system is designed to provide personnel of the Department of Defense with a uniform system of priorities which will meet economical restrictions and be compatible with the telephone precedence systems already in use within NATO and the Office of Emergency Planning.
3. The revised telephone priority system depends upon the cooperation of the authorized user. The user must be familiar with the purpose to be served by each precedence category and the types of calls which may be assigned the respective precedences. Application of the precedences will depend solely upon the subject to be discussed and the circumstances involved. Rank or position of the user will not be the determining factor as to assignment of precedence category.

NUMERICAL CATEGORY OF PRECEDENCE	MILITARY PRECEDENCE DESIGNATOR	TRANSMISSION PRE-EMPTION	APPLICATION
1	FLASH	Has precedence over any other telephonic call of lower precedence. Pre-emptes lower precedence calls. CHARGES FOR TELEPHONE SERVICES INSTALLED OR DISCONNECTED DURING THE MONTH WILL BE PRORATED ON A 30 DAY BASIS.

COMMUNICATIONS MORATORIUM

In connection with SAFEGUARD MISSIONS, it is mandatory that ALL overseas communications be minimized and controlled beginning at missile lift-off and extending until released by appropriate authority. In order to maintain positive control, all outgoing official calls must be approved by the Commanding Officer or the Deputy Commander. Only emergency incoming calls will be accepted by the KMR switchboard. All communications of a personal nature must receive the prior approval of the Chief, Communications Division, KMR, 82111. Amateur radio silence is imposed for the same period. You are reminded that in accordance with security guidelines, test results from SAFEGUARD Test Missions are classified. Therefore, extreme caution should be used during all telephone or radio conversations.

SIREN WARNING SYSTEM

1. TROPICAL CYCLONE OR TIDAL WAVE ALERT

TWO SHORT BLASTS REPEATED FIVE TIMES AT TWENTY-FIVE
SECOND INTERVALS. (SEE PAGE 14)

2. TAKE COVER

THREE TEN-SECOND BLASTS WITH TWENTY-FIVE SECONDS
BETWEEN BLASTS.

3. DISASTER

ONE THREE-MINUTE WARBLE. EVACUATE TO SHELTERS. (SEE
PAGE 15)

4. FIRE

ONE MINUTE STEADY BLAST.

5. ALL CLEAR

*ONE TWENTY-SECOND BLAST. (*THIS TWENTY-SECOND BLAST ALSO
SOUNDS EACH WORK DAY AT 1800 HOURS.) (SEE PAGE 15)

SPECIAL TEST. One ten (10) second blast - a forty (40) second pause - a ten (10) second blast - a two minute pause, and a repeat of the entire sequence. This test signal may be repeated if the original sounding of the siren is considered unsatisfactory.

SECTION I

DISASTER PLAN

TROPICAL CYCLONE OR TIDAL WAVE ALERT

If a Tropical Cyclone or Tidal Wave Alert is declared at Kwajalein Missile Range, persons on Kwajalein should act in accordance with the procedure below.

TWO SHORT BLASTS OF THE SIREN REPEATED FIVE TIMES AT 25-SECOND INTERVALS means that an emergency announcement will be made over radio station AFRS on 1220 kcs. You will be told what to expect, when to expect it, and what to do about it. You should also prepare for possible evacuation of your quarters, for short confinement in shelters and for recovery operations, as suggested by the checklists below. Keep tuned to AFRS on 1220 kcs for information.

Children at the Nursery or in School

After an Alert has been declared, and if evacuation is required, all children in the Nursery or in school will be released in time for them to be evacuated with their families to shelter.

Nursery through third grade will be released to their escorts designated on GA Form 9259. Designated escorts will be the parent, another adult, or an older brother or sister. Children authorized by this Form to return to their quarters unescorted will be instructed to do so. GA Form 9259 must be filled out by parents when registering children at the Nursery or school.

Grades four through 12 will be instructed to return to their quarters without an escort.

Parents anticipating problems in picking up their children at the Nursery or school must make individual arrangements with Nursery or school authorities beforehand.

Directions Before Taking Shelter

1. Gather all loose objects from around the outside of quarters and place them inside.
2. Clear ground floors of easily movable objects subject to salt water damage.
3. Have all children and pets remain near home to prevent last minute search.
4. Fill sterilized sinks and sanitary containers with fresh water for possible use during the recovery period.
5. Set aside a three to five day food supply, comprising easily prepared nonperishable items, in your quarters for possible use during the recovery period.

Suggestions When Taking Shelter

1. Wear comfortable, practical clothing. Shelter space will be minimal.
2. A blanket for each family member.
3. Special medicines required by the family.
4. Sufficient towels, handkerchiefs, kleenex.
5. Plastic bags for soiled baby clothes.
6. Coloring books, crayons and comic books for children; reading material, playing cards, etc.
7. Flashlights.
8. Transistor radios.
9. Put pets inside quarters; they will NOT be allowed in shelters.
10. No alcoholic beverages will be allowed in shelters.
11. Turn off all electricity inside quarters and turn off master circuit breakers.
12. For tidal waves, leave all outside doors open; for a tropical cyclone, leave outside doors and windows partially open.

THREE-MINUTE WARBLE ON THE SIREN means that evacuation to shelters is beginning. However, proceed to your appropriate shelter designated below ONLY when instructed to by AFRS or the Security sound truck.

TRAILER RESIDENTS will be transported by bus to shelter in the ZAR or DR Buildings. When so instructed by AFRS or the Security sound truck, board the nearest bus in your area, as shown on the Kwajalein Island Residential Area Map, Section 3 of this Directory.

ONE-STORY HOUSE RESIDENTS will take shelter in a two-story house as designated in the list below. Movement will be on foot, not in individual vehicles. All unoccupied two-story houses will be opened for use as shelters. Wooden roof quarters will not be used as shelters.

401D		439B	437A		437B	477A		484A				

TWO-STORY HOUSE RESIDENTS will take shelter on the second floors of their houses.

BACHELOR QUARTER AND TRANSIENT HOTEL RESIDENTS OR OCCUPANTS will take shelter on the upper floors of their respective quarters. Residents or occupants of one-story bachelor quarters will take shelter on the second floor of the Transient Hotel.

Persons other than trailer residents may also be sheltered in the ZAR or DR Building, if directed by the CO, KMR.

An Officer-In-Charge and assistants will be assigned to each shelter. They are there to assist you and to keep order. Please cooperate with them.

A registration desk will be at the entrance of the ZAR or DR Building shelter. Report any member of your family not accounted for.

TWENTY SECOND BLAST ON THE SIREN means "All Clear". Unless instructed otherwise by your Officer-In-Charge, the Security sound truck, or AFRS, return to your quarters and stay tuned to AFRS for any further directions.

*GA-9R flight may not be flown at scheduled times on mission nights; will be replaced by PRESS Special.

NOTE: Caribou aircraft may be scheduled to support any flight to Roi-Namur, passenger load permitting.

Using activities will develop internal procedures to insure that passengers check-in, in sufficient time to board aircraft prior to the scheduled departure times.

The LSC may cancel flights or adjust operational time to meet Range Mission requirements. Additional flights or extension of a flight beyond approved destination will require the approval of the C.O. KMR (RKL-T).

THIS DIRECTORY IS COMPILED FROM LISTINGS FURNISHED BY
ORGANIZATIONS AND INDIVIDUALS.

IT IS ONLY AS ACCURATE AS THE INFORMATION FURNISHED!

DID YOU FURNISH CORRECT LISTINGS?

CORRECTIONS, ADDITIONS AND DELETIONS SHOULD BE

SUBMITTED IMMEDIATELY AFTER THEY OCCUR. FOR FURTHER

INFORMATION CALL THE DIRECTORY CLERK 81125.

FOR MAXIMUM BENEFIT FROM YOUR TELEPHONE SERVICE,

READ THE GENERAL INFORMATION PAGES (PAGES 5 - 19)

OF THIS ISSUE OF THE KMR TELEPHONE DIRECTORY.
